SUMMARY

Python-focused Data Scientist and Machine Learning Engineer with 7 years of experience transforming raw data into actionable insights. Skilled in data engineering, advanced data analysis, predictive modeling, and designing robust pipelines. Experienced in enhancing, reviewing, and leveraging large language models (LLMs) for intelligent, data-driven solutions. Proficient in Python, SQL, Pandas, PyTorch, scikit-learn, and cloud platforms.

WORK EXPERIENCE

Turing **Nov 2023 – Mar 2026**
Python Data Scientist *USA, Remote*

- Performed advanced data analysis and feature engineering on structured and unstructured datasets to extract actionable insights.
- Enhanced and reviewed large language models (LLMs) for improved performance in data-driven applications.
- Designed and maintained robust data pipelines and ETL workflows using Python and SQL to ensure efficient data processing.
- Automated repetitive data tasks and processes to improve productivity and reduce errors.
- Collaborated with cross-functional teams to integrate data analysis insights into product and business strategies.
- Optimized data workflows and pipelines for efficiency, scalability, and reliability.

Medusa **Jun 2023 –Feb 2024**
Data Engineer (Freelancer) *USA, Remote*

- Implemented ETL processes using Redshift, Athena, and MySQL on AWS Lambda functions within Docker containers.
- Incorporated existing CI/CD pipelines via Bitbucket to enable smooth code deployment processes.
- Executed code pushes to trigger Bitbucket pipelines for automated builds.
- Managed Docker image deployments to AWS and monitored performance via CloudWatch.
- Implemented reverse ETL processes for Monday.com utilizing GraphQL with their API.
-

Love For Data **Jan 2023 – Nov 2023**
Data Scientist *Karachi, Pakistan*

- **ETL:** Wrote ETLs to extract, transform, and load data from various sources into a data warehouse.
- **Data Analysis:** Performed data analysis using Python and SQL to identify patterns and trends.
- **Predictive Modelling:** Developed and implemented predictive models.

Love For Data **Jan 2021 – Dec 2022**
Data Analyst *Karachi, Pakistan*

- **Django:** Wrote Django applications to develop and maintain web applications for data visualization and analysis.
- **Predictive Modelling:** Worked on predictive models to forecast future trends and outcomes.
- **Data Analysis:** Performed data analysis using Python and SQL to identify patterns and trends.
- **Market Basket Analysis:** Leveraged market basket analysis to generate insights that could be used to improve the client's restaurant menu, marketing strategies, and overall customer experience.
- **Web-Scraping**: Wrote multiple web-scrapers using Python.
- **Azure Lambda Function**: Developed and deployed a Python-based ETL pipeline on Azure Functions.

Love For Data **Apr 2019 – Dec 2020**
Junior Data Analyst *Karachi, Pakistan*

- **Data Audit:** Performed a data audit to identify and correct inaccuracies, providing clients with insights into their data quality issues.
- **Interactive Dashboard:** Developed an interactive dashboard using R-Shiny to visualize and analyze data.
- **ETL:** Wrote ETLs to extract, transform, and load data from various sources into a data warehouse.

Love For Data **Oct 2018 –Mar 2019**
Data Science Trainee *Karachi, Pakistan*

- **Web-Scraping:** Developed a web scraping application to extract data from various websites.
- **NLP:** Built an NLP model for sentiment analysis, text summarization, and question answering.

SKILLS

- **Programming & Data**: Python, SQL, Pandas, PyTorch, scikit-learn, Git
- **Data Engineering & Analysis**: ETL, Data Wrangling, Feature Engineering, Data Pipelines, Automation
- **Machine Learning & AI**: Predictive Modeling, Large Language Models (LLM) – Enhancement & Review
- **Cloud & Tools**: AWS, GCP, Docker, CI/CD, Jupyter, Colab, VSCode, Databricks.

CERTIFICATIONS

Completed over 50 certifications in Python, R, SQL, Excel, Tableau, machine learning, data engineering, Linux, and statistics. Details on my portfolio: https://amirsaleem1990.github.io/#certifications-section.
